

Hindu College felicitates 'SARTHAK SAMMAN' to Sant Sanganeria on its founder's day

Dr. Satyapal Singh confers on 'Sarthak Samman' to Mr. Sant Sanganeria (third right)

Sanganeria Science Block at Hindu College Campus of Delhi University

Shri Sant Sanganeria, a great source of inspiration, as the first recipient of the newly instituted honor for outstanding philanthropic gestures -- the '**Sarthak Samman**'. His journey reflects indomitable spirit and courage of conviction which shows how a person with strong resolve and hard-work can achieve global success through humble beginnings.

These are times of great tensions. More & more people are asking the same question. 'Why Live?' Others ask 'Live but how?' Regarding Life as mystery to be lived with sense and healthy approach; he has refused to endorse a negative attitude. He has taken good and bad in his stride, with equanimity, treating both as gifts of God.

We Praise and Honour him for that.

Again in a world bristling with growing vice and temptation, he has lived a virtuous life. He has shown that evil attaches itself to those who are evil and the virtuous, being God protected, are never tainted by it.

We Praise and Honour him for that.

There is another remarkable point. In this world, money has succeeded in dragging down almost every person, but he has not served Mammon. He has done well in life, as Man's worldly goods go, without compromising with his conscience. All around there is a fall in standards concerning basic morality. He has not allowed that to affect him.

We Praise and Honour him for that.

Not only has his association with Hindu College benefitted the institution in various tangible ways, but also, his presence on the Founders Day brought tremendous grace, pride and dignity to the occasion. Students and Academic fraternity were deeply impressed by the unassuming

modernity, simplicity of demeanor of the truly great son of the Indian soul.

In this very short but immensely meaningful period of his association, the College has seen a rapid upscaling of the infrastructure facilities for the students. The addition of state-of-the-art laboratories for Physics, Chemistry, Botany and Zoology shall open up new vistas of learning and give the students edge over their peers elsewhere. All hallowed academic ideals need solid infrastructural foundations in order that they can be realized to fruition. Without this invaluable contribution, the vision of excellence in academics and scientific temperament would have remained a distant dream.

With growing student strength, the existing infrastructure was proving to be severely inadequate both in terms of space as well as quality of equipments. With his single-handed generous contribution, these dreams have turned in to a foreseeable reality. Shri Sant Sanganeria has shown by this most benevolent gesture, how one individual can make all the difference.

We at Hindu College are deeply beholden to him. It is no wonder that his contributions have been recognized by the Trust of Hindu Educational Society in nominating him as a member Governing Body.

The 'Sarthak Samman' accepted graciously by Shri Sant Sanganeria is in fact a great honour conferred on Hindu College.

Dr. Anju Srivastava
Principal, Hindu College
