

CANCER JAGRUK RAJOKRI-EK PRAYAAS

ACTIVITY REPORT FOR JULY 2017

The need based survey report at Rajokri village identified 'Pahari' area as the most vulnerable zone. We started our awareness drive from 10th July 2017, door to door campaign was carried out and people were made aware of the planned awareness meeting in future. Our first awareness meeting was held on 14th at Barat Ghar, Rajokri. Our target age groups were in the age group between 18 to 55 years basically married women and men in the age group of 18- 65 years.

People came in batches, on spot registrations were done, which included filling in all personal details and also our questionnaires regarding their health status and general life style.

This meeting also involved a very open and encouraging discussion on general women health and associated problems. A talk on cervical cancer, oral cancer was delivered and symptoms associated with these cancers were discussed. Ways to identify and prevent were also discussed using informative charts.

Similar meeting was again held on 18th and 19th July, same earlier exercise was repeated with other batches.

In total around 85 people were addressed, although the number of male attendees was not encouraging.

Our project was successfully launched on 20th July .The occasion was graced by our sponsors Mr. Sant Sanganeria - Managing Trustee -Sanganeria Foundation for Health and Education and CAPED trustee Mr Arun Bharat Ram presence.

Teams of doctors from Artemis hospital along with their CSR manager Ms Richa Negi were present for the inauguration and screening camp which followed.

The program started at 11 am and after formal inauguration, the screening process started with ladies getting checked for head and neck, breast cancers and men for head and neck cancers.
